The following statement was issued by the CA Asian Pacific Islander Legislative Caucus:

"The remarks made by Assemblymember Cristina Garcia in 2014, that were recently revealed in published reports, were entirely inappropriate and offensive.

"Members of the API Legislative Caucus addressed the incident immediately after it happened by confronting Member Garcia and admonishing her in no uncertain terms.

"Following this meeting, the API Caucus had no further problems of this nature.

"Whether said privately or publicly, hateful remarks against the API community or any group have no place in our society and will not be tolerated."
